Summary

I am a final-year B.CS. student completing my degree in March 2024, currently undertaking a 6-month internship at Bike Bear. Until the end of 2023, I played a key role in launching the AISM website and contributed to the development of the Isetan app website. My primary focus is on securing a position in front-end development, full-stack development, or web development. During my internship, I mastered WordPress, primarily working with BeTheme and WPBakery, and honed my skills in HTML, CSS, and JavaScript. Eager to apply these skills in a dynamic work environment, I am enthusiastic about contributing to innovative projects and expanding my expertise.

Experience

Web Development Intern

Bike Bear

Oct 2023 – March 2024

AISM Website Launch & Isetan App Website (Until 2023):

- Played a key role in launching the AISM website and contributed to the development of the Isetan app website.
