Summary

I will graduate in March 2024 as a final-year B.CS. student with a focus on artificial intelligence. My path has included a conscious switch from artificial intelligence to web development, which was motivated by the realization that it closely matched my creative tendencies. I'm currently a 6-month intern at Bike Bear, where I've gained experience in quality assurance, post-maintenance, and design functionality. I also played a key part in the introduction of the AISM and Isetan app websites. I am proficient in GSAP, HTML, CSS, JavaScript, C++, and Java, and I'm now working on improving my React.js and Tailwind CSS skills. My goal is to land a position in front-end, full-stack, or web development. I'm excited to apply my knowledge to projects that are creative and active.

Experience

Web Developer Internship
Bike Bear
Oct 2023 - Mar 2024 (6 months)
Involved projects and what i gained:
Australian International School Malaysia(AISM):
• Finished the AISM project while interning at BikeBear, developing every internal page of the platform
• Under the careful guidance of a mentor, who offered insightful advice on how to apply academic knowledge in the real world
• Enhanced technical abilities, project management, collaboration, and communication throughout the project, signifying a significant turning point in professional development

Izad Kazran & Co (IKC):
• Producing 10 interior pages for Bike Bear: IKC was the second internship project.
• Acquired expertise in striking a balance between code efficiency and design aesthetics, honing web programming skills
• Concentrated on streamlining and optimizing CSS code for a repeating design, increasing efficiency

Isetan App:
• Task: Finish a partially developed mobile application by verifying its functioning and responsiveness to mobile devices.
• Adapted design based on mockups created by designers to provide a seamless and intuitive user experience.
• Acquired insights: enhanced competency in mobile development; deeper comprehension of mobile layout, design principles, and optimization for touch interactions and smaller displays

Swing & Pillows:
• Integrating customer-provided hotel information for various hotels was part of the Swing & Pillows project.
• One-of-a-kind challenge: logically and aesthetically displaying a variety of hotel information
• Use of interactive maps with iframes, which improves user experience and expands map integration skill set, is a noteworthy feature.

Integra Partners:
• worked on the Integra Partner project's mobile responsiveness, which required technical know-how and content presentation.
• Importing and categorizing material in accordance with customer modifications for uniformity and clarity were among the duties.
• Important insights: Considerable advancement in understanding of responsive design, style, and mobile layout.

‹/› Frontend Developer

Frontend Simplified

May 2022 - May 2023 (1 year 1 month)
• Delivered 3 professional websites using HTML5, CSS3 (+ SCSS, BEM), and JavaScript best practises
• Improved website performance by compressing, caching, and lazy loading images and components
• Included SEO, responsive, multi-platform, and hosting support, enabling their website to be used by any browser or device in the world.

Database Administrator

Malaysia Intergrated Population Census

Aug 2021 - Oct 2021 (3 months)
• Accurately and efficiently input data into the database system, ensuring that all information is recorded with precision, completeness, and adheres to specific guidelines and standards.
• Collaborated with the data analysis team to identify and resolve data inconsistencies, ensuring the integrity of the census data.
• Collaborated with the IT team to troubleshoot database-related issues, identifying and resolving performance bottlenecks for optimal data processing.

Education

Kolej Matrikulasi Pahang

Foundation Degree, Computer Science

2019 - 2020

Universiti Teknikal Malaysia Melaka

bachelor's degree in artificial intelligence, Information Technology

Oct 2020 - Mar 2024

Licenses & Certifications

Machine Learning Professional Certification - Altair RapidMiner

Data Engineering Professional Certification - Altair RapidMiner

Applications & Uses Cases Professional Certification - Altair RapidMiner

Skills

GreenSock Animation Platform (GSAP) • Management • Time Management • Database Administration • Database Management System (DBMS) • jQuery • Problem Solving • Web Development • Responsive Web Design • WordPress
